**Weekly Pick and Mix (Please complete all or some of these):**

<p>My story recommendation this week is 'Spyder' by Matt Carr. Matt Carr is a top selling author and has written the books, 'SUPERBAT', 'ROCKETMOLE' and 'BOB'S BIG TRIP.'                     Don't worry if you do not have the book at home, you can listen to the story by clicking on the link below.  <a href="https://www.youtube.com/watch?v=ppCc2Nu5q7g">https://www.youtube.com/watch?v=ppCc2Nu5q7g</a></p>	<p>Picture your name. Look for the letters your name in books or magazines. Cut them out and put them together to spell your name in a colourful collage.  </p>	<p>Join Curious Cat and his friends as they investigate how crayons are made.  <a href="https://www.bbc.co.uk/teach/class-clips-video/primary-science-how-crayons-are-made/zv6hf4j">https://www.bbc.co.uk/teach/class-clips-video/primary-science-how-crayons-are-made/zv6hf4j</a>  </p>
<p>Go on a photo walk. Pick a letter of the day and take photos of objects that start with your chosen letter. See if you can make a whole dictionary using your very own photos.</p>	<p>Recreate a book cover of your choice in any media of your choosing.</p>	<p>Click on this link to listen to the story of the Good Samaritan. Just below the video, you will find some downloadable resources.  <a href="https://www.biblesociety.org.uk/explore-the-bible/homeschool-resources/but-who-is-my-neighbour/">https://www.biblesociety.org.uk/explore-the-bible/homeschool-resources/but-who-is-my-neighbour/</a></p>
<p><b>Learn a new skill</b> - Set yourself the goal of learning a new skill. You may for example want to make a necklace by threading small beads onto a fine wire; you may want to learn to skip using a skipping rope or you may simply wish to create a picture using a homemade edible paint (my raspberries are ready to eat and make a great pink paint).  </p>	<p>If we had been in school, we would have been studying an artist called, 'Ruddy Muddy.' Use your ICT skills to find out 5 facts about him. Then create your own Ruddy Muddy inspired picture.  </p>	<p>Last week I suggested making a repeating pattern using objects from your garden. This week, have a go making a symmetrical pattern. Start by folding a piece of paper in half. Then make a pattern on one side. Repeat your pattern ensuring it is symmetrical.  </p>

The grid above can be completed this week. However, should some of these tasks not be completed, they can be carried over to the following weeks.

If you need further challenges/ideas to keep you busy, please take a look at the website list that we have provided. This can be found on the school website under Newsletters/Useful Websites.

In school, we use a Golden Nugget reward system which results in each class earning a reward once 30 nuggets have been earned. It would be a good idea for you to mirror this system but feel free to amend it in a way that suits you and your child e.g your child could earn 20 marbles over a week to earn a treat of their choosing.

Please send a weekly email to your child's teacher to let them know how you are getting on. We would love to hear about all of your hard work. You can send us photos or written work. Please encourage your child to write their own email or help you to write one. You can also email us with any questions you may have. Please be aware of the pressures on staff; we all have families to care for and may not be able to respond immediately.
