18th March 2020

Dear parents,

We now have several families who are self-isolating and staff members who are in the same position.

In the first instance we are expecting self-isolating families to complete the work packs that have been sent home. Going forwards we are going to be providing activities to be done at home through our school website. These will be accessible through your child's class pages and we will text you when the content is available and whenever it is updated. This provision will also help us if we have to move to partial closure or if schools are asked to close completely. Please be patient with us as we get used to this new way of working.

We are providing you with all teachers' email addresses. This is to enable the best possible communication going forwards. If you are happy to communicate with your child's teacher in this way, please email them with your home email address (we cannot use work ones).

Your child's class teacher will not be able to respond unless you have given permission for them to do so. Please email with the message:

I am happy for the school to email, with school matters, during the COVID-19 outbreak.

Or

I am happy for the school to email, with school matters, from this point forwards.

We will be phoning any parent who has not replied by 3pm Thursday 19th of March to check if the message has been received.

Whilst the school is open, teachers will be teaching and will have limited time to make contact. If the school closes, teachers will be able to communicate within working hours. Please be aware of the pressures on staff; we all have families to care for and may not be able to respond immediately.

As a school family, we are all here to support each other. We want to be ready to support your children when they return to school. If you have any family worries that you feel you would like to share with us, please email Mrs Nolan. As a school, we are putting together information packs to support you as parents, carers and family members as well as providing information that will enable the children to continue to learn.

Please remember, current guidance: if any family member has a new continuous cough or high temperature the whole family must quarantine for 14 days.

Yours sincerely,

Anne Nolan
