

COVID 19 Risk Assessment September 2020 updated 11/09/20

ASSESS

Decide appropriate control measures for managers and employees to implement under a 'Plan', 'Do', 'Review' cycle.

*The preventative measures in this risk assessment are not mandatory but are provided as guidance on reducing the risk of transmission. Each school/setting must consider their own situation and adapt the assessment by editing the measures where appropriate

Who may be at risk: Employees, pupils and young people, families (parents, carers and siblings), visitors, contractors, members of public.
Vulnerable groups – this risk assessment considers vulnerable groups which the NHS lists as 'people at high risk (clinically extremely vulnerable)'; and 'people at moderate risk (clinically vulnerable)'. . Some people with particular characteristics may be at comparatively increased risk from COVID-19 (due to age, deprivation, ethnicity, etc.). An individual risk assessment may be appropriate for those who are very anxious about returning to their workplace.
